CUSTOMER FOCUSED
Throughout its long history, Damen has understood the importance of working closely with its clients - in every sense of the term. This is why we operate where you are in the world and why our methods are based on what you tell us.

WHO WE ARE

SAFETY
Our processes aim at making our work as safe as possible for everyone involved, not just during a project, but also when your vessel is back on the water again.

COMPLIANT
Damen is committed to compliance. Our compliance procedures guide us in all that we do. Our results serve to demonstrate our desire to get things right - first time, every time - and to showcase our performance for all to see.

SUSTAINABILITY
A long-term outlook demands that we do everything we can to minimise the impact our products and services have on the environment. We are proud to work towards the goal of making our industry more sustainable.

CRAFTSMANSHIP
Damen people take pride in the work they do, carrying it out with the passion of the craftsman.

RELIABILITY
Maximum uptime means minimum downtime. We understand that you need your vessel operational as fast as possible and for as long as possible. We are committed to providing you with a reliable service to meet these requirements.

COMPLEX PROJECT MANAGEMENT
Our in-house project managers are experienced in every kind of repair and maintenance projects, up to and including complex projects on the most advanced and fully equipped vessels and maritime structures.
It is always our aim to do the very best that is possible. This philosophy runs through everything we do.

MAINTENANCE & REPAIR
Maintenance is crucial. We have the capabilities to take on the most challenging projects to the highest standards, on time and on budget.

Damage is inconvenient and expensive. That’s why we ensure a quick, safe and reliable service to get you underway from a stock of part.

CONVERSION & REFIT
Benefit from our track record in providing reliable, efficient and innovative conversion services on diverse types of vessels.

A Damen refit can truly turn back the hands of time and give you a completely refreshed vessel compliant with current regulations and equipped with the latest technology.

GREEN SOLUTIONS
We offer a one-stop-shop for ballast water treatment systems, emission scrubbers and LNG propulsion systems.

DECOMMISSIONING
DSC is your partner in the dismantling and recycling of old vessels and offshore structures.

HARBOUR & VOYAGE
Wherever you are, whatever you need us, our mobile repair squad is there to serve you 24/7.

Damen Shiprepair & Conversion’s (DSC) scope of work covers repair, maintenance, refit and conversion on all types of vessel, throughout the entire lifecycle – from first scheduled service through to decommissioning and disposal.

OUR SERVICES
ANYWHERE, ANYTIME
In any project we undertake, safety is foremost priority. Following this philosophy stands us in good stead to consistently meet the stringent safety requirements of the offshore oil & gas industry. With our dedicated Offshore & Conversion department, in-house engineering expertise and large drydock capacity, we are able to service all types and sizes of offshore vessel and structure.

SOPHISTICATED SAFETY
OFFSHORE OIL & GAS
RELIABILITY AND PERFORMANCE

DSC stays up-to-date with all the latest trends and developments in the offshore wind industry. We are able to carry out all aspects of repair, maintenance and refit projects, from design and engineering, to pre-fabrication and execution. And, with sixteen yards – eight of which are located on the northern European coastline – we are always close at hand.
DSC has a strong track record of ferry maintenance and repair projects, covering both RoPax and RoRo vessels all over the world. We have a wide range of drydock sizes available at strategically located yards close to major ferry routes, including close to major ferry terminals such as Rotterdam and Southampton as well as in the Caribbean.

At DSC we understand how crucial it is that a cruise vessel is ready on time to meet its scheduled itinerary and we are well-versed in planning projects with the required precision. We can also deal with your logistics demand. We have sixteen yards located around the world, including close to major cruise terminals such as Rotterdam and Southampton as well as in the Caribbean.

DSC benefits from its close relationship with superyacht builder Amels – part of the Damen Shipyards Group – and its network of subcontractors and suppliers. We have superyacht and megayacht project experience covering Class surveys, routine maintenance, damage repair, engine replacement, detailed restoration and extensive remodelling. We offer discreet covered drydock facilities at convenient locations with the capacity to host the largest of megayachts.

As a company with Dutch roots, DSC is well experienced in the repair and maintenance of dredgers and enjoys many long standing relationships with dredging companies. We understand dredgers must operate in some of the toughest conditions imaginable. Our approach involves a combination of teamwork, innovation and cutting edge materials and facilities, aimed at ensuring you of a timely delivery.
The Damen Shipyards Group has extensive expertise in naval shipbuilding and repair, including Damen Schelde Naval Shipbuilding’s 140 years of experience. From this long-standing relationship with the sector stems DSC’s knowledge of cutting-edge naval technologies, cost-effective and reliable design solutions as well as an ability to speak your language.

DEFENCE & SECURITY
PROTECTING SEAS AND SHORES

At heart, Damen remains a family company. As such, we look to develop long-standing relationships with our clients. A big part of this is listening to what they have to tell us and staying up-to-date with the latest developments in their industry. In this way, DSC has developed a close understanding of the fishing sector. With locations across the north European coast, you can be assured we speak your language, be it English, Dutch, French or Spanish.

A SUSTAINABLE FUTURE FOR FISHING

We love vessels of all sizes. Large or small, you are welcome at our yards. This is why we have a number of locations specialised in the service of smaller vessels. From these sites, we have developed an extensive track record in the repair and maintenance of inland shipping vessels. A record characterised by high quality, a no-nonsense attitude and competitive pricing.

MARITIME CRAFTSMANSHIP
INLAND SHIPPING
FOR THE HINTERLAND

HARBOUR & TERMINAL
KEEPING THINGS ON THE MOVE

Tugs and workboats lie at the root of the Damen story. We started out with building workboats and, today, we are still very strong in this area. DSC is able to undertake maintenance, repair, refit and conversion of tugs, workboats and all other vessels that operate in ports and terminals.
**TANKERS**

**NO EXCEPTIONS**

DSC is well-positioned to carry out works on tankers. With a safety-first approach, we have developed an excellent track record. We have the ability to service full-loaded tankers in non-gas-free conditions and offer an in-house GRE piping shop.

---

**LNG**

**WITH YEARS OF EXPERIENCE**

Natural gas is the fastest-growing fossil fuel in the world, and LNG tanker transportation is increasing as a result. We offer over 30 years’ experience in repairs and services spanning all types of vessels operating in the natural gas arena.

---

**SERVING THE FUTURE**

**LNG WITH YEARS OF EXPERIENCE**

**THE FULL SCOPE**

**BULKERS**

**ON TIME, EVERY TIME**

With wide availability of large drydocks, we are always conveniently located for the service of bulkers. We cover all aspects of repair, maintenance, refit, and conversion projects and our capabilities include conducting CAP surveys. We are well known in the industry for working together with our clients in order to achieve their requirements, on time and on budget.

---

**CONTAINERS**

**NO SIZE IS TOO BIG**

We have flexible availability of large drydocks at sixteen yards all over the world – including some of the largest drydocks in the largest ports in Europe. Our locations offer abundant storage space and suitable equipment for handling large parts, such as rudders, propellers, shafts and large quantities of steel. Additionally, we offer in-house steel working capabilities and a workforce with an enviable track record in projects on container and general cargo vessels.
WHEREVER YOU ARE
SHIPREPAIR & CONVERSION
WHENEVER YOU NEED US

Damen Shiprepair & Conversion operates from sixteen shipyards in four continents and through our Harbour & Voyage team worldwide. Each DSC yard comes with its own unique history and people however, they all provide the same level of quality and reliability.
Global Support

We aim to make things as convenient as possible. This means doing what you need us to do, wherever you need us to do it. In order to make that a reality, our services cover the entire lifecycle of a vessel, across the entire spectrum of maritime industries.

Our sales force, like our yards and strategically located service hubs, is also globally active, with 72 regional offices to make sure you can reach us quickly and easily.

To find out more about Damen Shipyards Group, visit the website or contact us today:

Our facilities include additional service capabilities in order to fulfill the complete scope of repair and maintenance work, quickly and to the highest standards.

Gre Pipings

We are a member of the NOV FGS global service network and provide professional, reliable and expedited services to all vessels that need dedicated specialist GRE piping systems. We have the knowledge and equipment to make special GRE engineered and cost-effective solutions and keep in stock a substantial range of GRE piping, materials and components for quick response.

Steel Constructions

Within DSC we have steel construction and machining capabilities. This combination allows us to operate on large scale - heavy construction work - unique, accurate machining at extremely low tolerances - and everything in between.

Anchors and Chains

Damen Anchor and Chain Factory (AKF) is the go-to place for the supply, repair and testing of anchors and chains. We are committed to providing outstanding quality, availability and pricing.
